Cosmic spaces Spring Summer

With Marvel turning up the hype for Captain Marvel and Avengers: Endgame, we answer the superhero call with two eye-catching interiors that are dramatic, trendy and out-of-this-world.

Rebecca Snowden, Interior Style Advisor at Furniture Choice discusses two different approaches to work this fun look at home. "The superhero theme is incredibly versatile - it can be energetic and bold, or kept simple with interesting details, depending on your preference and budget."

"The living room is a great spot for this theme," suggests Rebecca. "A cosmic-inspired feature wall creates an interesting focal point with its dynamic details. Pair it with a modern, black leather sofa to balance out the busy prints."

"Another easy way to nail the superhero theme is by decorating smart, so play around with fun elements, patterns and bold colours. Think unique lighting fixtures and quirky, Marvel-themed decor, such as cushions and paperweights that'll work as interesting details. The result is a modern interior that pays homage to iconic characters while giving the room a playful burst of personality."

Meanwhile, another way to take on this look is with a minimalist aesthetic, paired up with subtle, interesting details. For our tribute to Captain Marvel, we went with a playful approach in a neutral bedroom, with pops of pink and 90s pop culture references. "The bedroom is a sanctuary, so it's really one of the best places in the home to showcase your personality," says Rebecca. "From a mini statement wall to cute cosmic details, this is the perfect opportunity to get creative and let the child inside you shine!"

"Decorating around the space and constellation theme is another creative way to reference Captain Marvel's cosmic origin story. Stars, space and constellations are going to be big trends this year - so look out for decor and prints that reference that. For instance, colourful wall art and a simple, chic garland showing off the phases of the moon are stylish nods to the powerful Marvel heroine, without being over the top. Instead, they add a touch of whimsy to a neutral, serene space. It's all about little touches here - with cosmic-inspired decor such as planet enamel pins and sparkly galactic paperweights giving the room a little something extra, while keeping it stylish and polished."
